LOCAL MATTERS.

The Buckingham Railroad. MEETING AT THE TOBACCO EXCHANGE-STIR RING SPEECHES BY R. T. HUBARD AND J. B.

FICKLEN-RICHMOND CALLED ON TO HELP. On the 3d instant we published the proceedings of the meeting held at New Canton on the day before for the organization of the Buckingham Railroad Company, and gave an outline of the plans and purposes of the company.. On yesterday there was a meeting of the Richmond friends of the road at the Tobacco Exchange, at which Mr. Andrew L. Ellett presided and Mr. John

Ott acted as secretary.
Mr. R. T. Hubard, late of Buckingbars, but now a resident of Richmond, was introduced to the meeting by the chairman. Mr. Hubard dwelt upon the fact that the taste of the world changing, the tobacco peculiar to the Buckingham region no longer brought the cost of production, while the West could beat us at our own doors on wheat and corn as staple crops. That county had a wealth of minerals, and the eligible seats should go early. effort of the people there had turned in the direction of their development. If devel-oped, those continuing in agricultural pursuits would have a home market for their products, and be thus enabled to buy what Richmond had to sell. But this development could not come about except through rapid and certain transportation, and the railway projected is intended to do this very thing. Mr. Hubard, at the end of his address, which was full of interest, submitted sundry specimens of iron and other ores to

the inspection of the meeting.
Mr. J. B. Ficklen, member of the Genewill publish at an early day:
MARTIN'S TOPICAL INDEX TO THE VIRGINIA REPORTS, from deferson to 33d Grattan. This work will supply a want which no other president of the road, was then introduced. Mr. Ficklen, in a clear, business speech, ex-IT IS WARRANTED TO CONTAIN ONLY THE plained the position of his company from its for his beautiful performances will begin at charter up to its present organization. He Ramos & Moses, on Tuesday morning. brought out the fact that this new road, in CHOICE FRUIT JUICES AND GRANULATED connection with the Richmond and Alleghany road at New Canton, was virtually the old straight-shoot from Richmond to Lynchburg. Mr. Ficklen, in his argument, proceeded to show that the country pene-trated by the road was rich in all the elements that build up great States and make populous cities, and dwelt upon the fact that it was to the market of Richmond that this trade must come, and that no man could prevent it. He said, Stretch out your arms to the west and to the South, but don't forget the west undeveloped wealth within sixty miles of your city awaiting the touch of capital and the means of transportation.

Mr. Ficklen closed by saying that "the iron horse, the rolling-mall, the furnace, the

IT CAN BE USED CLEAR OR WITH FRESH MILK, ICE, SODA, OR HOT WATER, LEMOXADE, OR WITH FINE ICE, TO SUIT THE TASTE. ores, the mines, the product of field and forest, would do for Virginia what the genius of Alexander Hamilton had done for smote the rock of the national resources, and abundant streams of revenue gushed forth. He touched the dead corpse of the public credit, and it sprang upon its feet."

Mr. Ficklin desired the moral force that the endorsement by the city of Richmond dolph & English have received notice that would give to his scheme abroad, and also they have been awarded the premiums for would give to his scheme abroad, and also such subscriptions by individuals to the capital stock of the company as its merits could secure. A very moderate amount would secure success to the enterprise.

J. Hampden Chamberlayne, of the State, and a half year, old can beat the factories.

The ejectment case of Achinson vs. Tosh, relative to the possession of a farm on the James river near Bermuda Hundreds, was begun in the County Court Friday.

Zera—An Address to the Public. followed Mr. Ficklen, and endorsed the scheme and the man. Said he would help and take a few shares. He very man help the state of Europe in finish and designs. The exhibit made by this tiem embraced first terms of the state o and take a few shares. He very gracefully alluded to the fact that Mr. Ficklen, in the TIRED). PROFESSOR OF DISEASES OF THE General Assembly, was always the fast mind and nervous system in the univer- friend of Richmond, and he was glad, as a

IMPORTANT TO BRICK MANUFACTURERS.
Having purchased the sole right to make, use, and vend the "Asbury Brick-Burning Improvement" in the conties of Richmond and Manchester, and in the counties of Chesterfeid and Henrico, I now offer the use of this most valuable invention to brick manufacturers.

This improvement is the invention of Dr. Daniel Asberky, a scientific gentleman and one skilled particularly in everything appertaining to "heat and furnaces," and as his invention was first practically developed in my yards, under the supervision of my manager, Mr. E. B. DUNSFORD, so long and favorably identified with brick manufacture in this city, and as Mr. DUNSFORD has successfully burned one million five bundred thousand bricks for me under this new plan. I now offer it to those interested in brick manufacture with the greatest invention—so simple, so cheap—that his been made in brick-burning for more than a century. Bricks in kilos burned after this economical plan may now be seen by all interested at my yards in Manchester. For further particulars and terms apply to GEORGE ELLLIS REDFORD,

Brick Manufacturer and Contractor.
